SUMMARY

25X1D

A probable communications facility is situated on a 95-acre plot, 8 kilometers (km) south of Uzhgorod, near the village of Koritnyany (Figure 1). The installation contains a transmitter building, an administration building, four multi-unit residences, four permanent barracks, an equipment maintenance building, two vehicle maintenance buildings, a small arms range, and 18 small miscellaneous buildings.

This installation is visible on photography of [REDACTED] when all buildings appeared except the administration and barracks which

might have been under construction at that time. The area is not so sharply defined nor so neat in appearance. By [REDACTED] all construction was complete and the area began to appear as a well-defined rectangle situated in surrounding fields of irregular shape. [REDACTED] the facility had an appearance which has not subsequently changed.

The installation was covered by [REDACTED] KEY-HOLE missions between [REDACTED]
